

KEY FEATURES

- Create layered thick media
- Hand rolling not required
- Simple to use
- Cost-effective solution

GREAT FOR USE IN

- Commercial printers
- Digital printers
- Copy and print shops

IDEALLY SUITED FOR

- Luxury business cards
- Book covers
- Personalised photobooks and many more...

The new Easycoat® Gluing System & Easyguide™ Carrier create thick substrates for luxury book covers, high quality business cards and more.

Would your customers see an immediate business benefit to their products feeling thicker when digitally printed? We have the solution.

The new Easycoat® is a SRA3-size gluing system that adds a layer of adhesive to media. The sheets can then be added one-by-one to create a thick substrate that can be used for many applications, including book covers and luxury, high quality business cards.

Each glued substrate is placed in the new Easyguide™, a unique carrier tray which helps to secure the media in place and gives improved levels of accuracy and precision. The layers are then passed through the Easymount®, adhering and fixing the glued prints by using the systems mounting capabilities. Used in conjunction with the Easymount® EMS-650, the boards are quickly and easily mounted together.

Specifications	EMS-650	Easycoat	Easyguide
Mechanical Speed (m/ft/min)	5m/16ft	-	-
Operating Speed (m/ft/min)	-	4.5m/15ft	-
Max. Width (mm/inches)	650mm/26"	500mm/20"	500mm/20"
Mounting Thickness (mm/inches)	15mm/0.6"	-	-
