Design & Performance

The Peak Neat has been designed to be compact, lightweight and easy to operate.

Each model features 2 heat settings for 150 micron (75 per side) and 250 micron (125 per side) pouches, reducing the risk of user error. This simple system makes lamination easy for all users.

Rounded corners provide added safety, an important feature if being used in a communal or educational environment. The stylish black and silver finish fits into any working area and the lightweight design makes each system portable.

Features

- Laminates from ID to A2
- Stylish and lightweight
- 2 heat settings
- Ready light indicator
- Carrier free operation
